

Credits

Additional to the problemsetters, all these people also helped with the problemset creation:

L^AT_EX edition

- Hugo Humberto Morales Peña
- Daniel Cañizares

Writing revision

- Ricardo Arenas
- Santiago Gutiérrez
- Sebastián Escobar

Special thanks to

- Yonny Mondelo

For sharing his problem statements and packages for this contest.

Special thanks to

- Fabio Avellaneda
- Sebastián Gómez
- Juan Felipe Cañizares
- Brian Giraldo

For their constant support in testing, debugging and improving the statements, solutions and problem packages.

Problem I, Immortal Rabbits, was written by Brian Giraldo, Carlos Vergara, Daniel Cañizares (UCO) and solved on *C++* by Sebastián Gómez from UTP.

Important

Writing supervisors are not responsible neither of last-minute errors that problem setters could have introduced on this document, nor the problems, nor the stories.

Pictures that appear in this problemset are property of their owners. References to Garry's Mod and Star Wars were made with educational purposes only. No copyright infringement was intended.
